3. The second ground was not pressed at the hearing, no issues were framed with regard to it, and no evidence was adduced. The application therefore fails so far as it proceeds on that ground.

4. As regards the first ground, the reply given by the respondent in his written statement is as follows :—

"The name of the respondent is registered as voter No. 33 on the electoral roll of the East Bengal Muhammadan constituency, Council of State, which is a constituency in the province of Bengal, and the respondent has got all the necessary qualifications."

He also asserts in his written statement that the petitioner has no *locus standi*, that the petition is not in proper form, that it has not been signed and duly verified, and that it has not been presented to the proper authority.

5. The following issues were framed by us on reference to the pleadings :—

(1) Has the petitioner any *locus standi* to present this petition ?
(2) Can the petition be entertained in its present form ?
(3) Was the petition presented to the proper authority ? If not, can it be entertained ?
(4) Was the petition signed and duly verified by the petitioner ? If not, can it be entertained ?
(5) Is the name of Maulvi R. J. S. M. Hossain Ali on the Electoral Roll of the Bakarganj North Muhammadan constituency, or of any other constituency in the province, as required by rule 6 of the Bengal Electoral Rules ? If not, is he eligible for election as a member of the Bengal Legislative Council ?
(6) Should the election be declared void under rule 42 of the Bengal Electoral Rules ?

6. As regards the first issue, the respondent's contention is that the petitioner was not duly nominated as a candidate, and that he has therefore no *locus standi* under rule 30 to present the petition. There is however no evidence to shew that the petitioner was not duly nominated, and apart from that, the term "candidate" includes a person who *claims* to have been nominated as a candidate, *vide* rule 28 (*b*).

There is no doubt that the petitioner claims to be a candidate, and he is therefore, under rule 30, entitled to present this petition.

7. As regards the second, third and fourth issues, it is to be observed that the petition consists of two parts. The first and main petition is addressed to His Excellency the Governor, and was presented to the Chief Secretary on the 13th February 1922—it appears to be in proper form except as regards the alleged irregularities and illegalities at the polling, details of which are lacking. The second petition is addressed to the Chief Secretary to the Government of Bengal and was presented to that officer on the 14th February 1922—it was submitted in compliance with the directions of the Chief Secretary, and furnishes the details of the alleged irregularities and illegalities in the polling which were lacking in the first petition.

The first petition is duly verified, but the second petition does not bear any verification.

As the allegations regarding irregularities and illegalities in the polling have not been pressed, the fact that the second petition, which merely gives details of those allegations, has been addressed to the Chief Secretary and not to His Excellency the Governor, and that it has not been verified, is of no importance.

The first petition is in proper form and has been duly verified—it is addressed to His Excellency the Governor and was presented to the Chief Secretary who is the proper person to receive such petitions on behalf of His Excellency—there is therefore no reason why it should not be entertained.

As regards the signature on the petition, no evidence has been adduced to shew that it is not genuine, and on comparison with the petitioner's signatures on the *vakalatnamas* filed by him, we see no reason whatever to doubt its genuineness.

8. The fifth issue is the main issue in the case.

It is asserted in the petition that the respondent's name is not registered on the electoral roll of the constituency or of any other constituency in the

province. All that the respondent says in reply to this in his written statement is that his name is registered on the electoral roll of the East Bengal Muhammadan constituency for the Council of State, and he goes on to say that this is a constituency in the province of Bengal and that he has got all the necessary qualifications, *vide* paragraph 6 of his written statement. From the language used in the pleadings it is clear that by the words "any other constituency in the province" petitioner meant "any other constituency for the election of members of the Bengal Legislative Council," and that the respondent also understood the words in question in the above sense.

It thus appears that the petitioner has in his petition made a definite allegation of fact, viz., that the respondent's name is not registered on the electoral roll of the constituency in question or of any other constituency in the province for the election of members of the Bengal Legislative Council, and it further appears that this allegation of fact has not been denied specifically or by necessary implication, and has not been stated to be not admitted, in the written statement filed by the opposite party.

This being so, under Order VIII, Rule 5 of the Code of Civil Procedure, the above allegation of fact made by the petitioner in his petition must be held to have been admitted by the respondent.

The learned vakil for the respondent has contended that the allegation in question was vaguely worded and that Order VIII, Rule 5 does not apply, but this line of defence appears to us to be an afterthought, and we cannot take it into consideration in determining whether the allegation is to be taken as having been admitted or denied.

9. In view of the above finding there is really no issue of fact involved in this issue, and the question of burden of proof does not strictly speaking arise.

If however the above implied admission be ignored, we are of opinion that the burden of proving that his name is registered on the electoral roll of any constituency for the election of members of the Bengal Legislative Council, rests on the respondent and not on the petitioner.

In the first place, we are of opinion that the petitioner's allegation on this point is not only negative in form but also in substance, and therefore under section 103 of the Indian Evidence Act, the burden of proof rests not on him but on the respondent.

In the second place, the respondent is in an infinitely better position than the petitioner to know and to prove whether his name is or is not registered as aforesaid. He knows, or ought to know, for what constituencies he is qualified and whether his name has been registered or not,—and if his name has been registered for any constituency, he can prove it by producing the electoral roll of that constituency,—whereas in order to prove the contrary, the petitioner would have to produce the electoral rolls of some ninety constituencies.

The fact,—if it be a fact,—of his name being registered as aforesaid, is therefore especially within his knowledge, and having regard to the principles underlying section 106 of the Indian Evidence Act, the burden of proving that fact rests on him.

Lastly, regard being had to the wording of rule 6(*1*)(*a*), the opposite party is in the position of a person claiming to come under an exception to a general rule, and for this reason too the burden of proof rests on him.

It is no doubt true that the Court might, and in most cases should, presume, under section 114 of the Indian Evidence Act, that a sitting member of the Legislative Council is properly qualified and has been duly elected, but for the reasons mentioned above we are of opinion that we would not be justified in making such a presumption in the present case.

We hold that the burden of proving that his name is registered on the electoral roll of a constituency for the election of members of the Bengal Legislative Council rests on the respondent. He has not made any attempt to discharge that onus, and we therefore find that his name has not been so registered.

10. As regards the second part of the fifth issue, it is asserted and proved by the respondent and not denied by the petitioner, that the respondent's name has been registered on the electoral roll of the East Bengal Muhammadan constituency for the Council of State, and the question for decision is whether that constituency is included in the term "any other constituency in the province," as used in rule 6 (*1*) (*a*).

Now although the Bengal Electoral Rules were framed by the same authority as the Council of State Electoral Rules, and the Legislative Assembly Electoral Rules, each of these sets of rules is complete and self-contained, and we should therefore not look beyond the Bengal Electoral Rules in determining the meaning of the above expression. We should moreover look to the plain meaning of the words in question, and should not read into them any meaning which is not clearly expressed therein.

Part I of the rules is headed "Composition of Councils and Constituencies," and rule 3 thereunder lays down among other things that there shall be 113 elected members on the Legislative Council of Bengal, while rule 4 lays down that the elected members shall be elected by the constituencies specified in Schedule I.

Part II is headed "Qualifications of Elected Members," and rule 6 thereunder lays down among other things that no person shall be eligible for election as a member of the Council to represent a general constituency unless his name is registered on the electoral roll of the constituency or of any other constituency in the province. Reading the words "any other constituency in the province" in the light of the context as indicated above, we have no hesitation in coming to the conclusion that they mean "any other constituency in the province for the election of members of the Bengal Legislative Council," and that the expression "any other constituency" cannot possibly be intended to include constituencies for the election of members of the Council of State.

We therefore find that the fact that the respondent's name has been registered on the Electoral Roll of the East Bengal Muhammadan electorate of the Council of State does not render him eligible for election as a member of the Bengal Legislative Council.

The result is that we decide the fifth issue in favour of the petitioner, and find that the respondent's name has not been registered on the electoral roll of the constituency for which he has been elected, or of any other constituency in the province as required by rule 6, and that he is therefore not eligible for election as a member of the Bengal Legislative Council.

11. The first five issues having thus been decided in favour of the petitioner, it remains for us to consider whether the respondent's election should be set aside under rule 42. It has been contended by the learned vakil for the respondent that rule 42 does not cover a case of this sort, and that rule 43 limits our report to the points specified in rule 42. We have however no hesitation in coming to the decision that rule 42 does apply. The rules provide among other things that no one shall be elected as a member of the Bengal Legislative Council who is not eligible under the rules. The respondent is not eligible and yet he has been elected, so it is clear that the rules have not been complied with and that the result of the election has been materially affected by such non-compliance.

Rule 42 expressly lays down that under such circumstances the election shall be void, and there can therefore be no doubt as to our jurisdiction to submit a report to this effect.

12. We find that the respondent, the returned candidate, has not been duly elected, and that the election should be declared to be void.

We beg to add that we are unanimous as regards our decisions on all the issues and as regards our final finding, but there has been some difference of opinion on the question of burden of proof in connection with the fifth issue. Our report on this point is however expressed in terms of the views of the majority. On all other points we are, as has been stated, unanimous.

13. As regards costs, we see no reason to doubt that the respondent, relying on a wrong interpretation of rule 6, believed himself to be eligible for election, and that both he and the petitioner acted in good faith throughout.

In view of this fact, and of the fact that the case has turned mainly on the question of the correct interpretation of the rules, we direct that each party should bear its own costs.

Candidates practising in the Burdwan, Presidency and Rajshahi Divisions at the Bengal Engineering College, candidates practising in the Patna, Tirhut, Bhagalpur and Chota Nagpur and Orissa Divisions at Bankipur.

Candidates practising in Courts in the Dacca and Chittagong Divisions and in Assam will be examined at Dacca.

8. The maximum number of names that will be registered for the examination is 20 each at the centres at the Bengal Engineering College, Dacca and Bankipur

9. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary will have power to direct candidates to proceed for examination to one of the other centres, provided that this does not increase the number appearing at that centre to more than 20.

10. In the event of more candidates than provided for in Rule 8 being registered for examination in any year, the number admitted to the Bengal Engineering College, Dacca or Bankipur centres may be increased for that year. Should the number of candidates for examination at either of these centres be too great (in the opinion of the officer controlling the examination) to be examined at one time, he may arrange for two separate examinations in the field tests. All candidates must appear at the same paper examination

11. The registration of candidates for the examination will be conducted by the Secretary of the Examination Board, in the case of candidates practising in Bengal and by the Joint Secretary in the case of those practising in Bihar and Orissa.

12. No candidate will be admitted to the examination unless he has been enrolled as a pleader, and—

(*i*) has obtained credit for attendance at the special course of instruction not less than one year and more than four years previous to the date of the examination, or

(*ii*) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(*iii*) has passed the Sub-Overseer Examination, or

(*iv*) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(*v*) be specially exempted from the operation of this rule by the Board controlling the examination.

13. No candidate will be admitted to the examination more than three times.

14. Candidates for admission to the practical examination shall, after they have had their applications on the prescribed form countersigned by the District Judge, forward them to the Secretary or Joint-Secretary of the Examination Board so as to reach his office on such date in January as may be fixed annually by the Secretary and notified in two issues of the Gazette during the preceding month. Each application must be accompanied by a receipt from the local treasury certifying that the examination fee of Rs. 50 has been paid into the treasury; unless such receipt be received, the candidate's name will not be registered.

* The reason why it is not possible to hold a second examination at the other centres (*vide* Rule 10) is that they have not so large a number of teachers, and the holding of the examination necessitates the closing of the school while it is proceeding.

15. Each examination is complete in itself. A candidate will be required to pass the examination in every test, and will not be exempted from a test on the ground that he satisfied the examiner in it previously.

16. No certificates of partial success will be issued.

17. The examination will comprise the following tests:—

I.—A paper on practical surveying (three hours).

II.—A practical test in chain surveying, during which the candidate's knowledge of the use of a prismatic compass will be tested.

III.—A practical test in plane tabling.

IV.—A practical test in levelling.

V.—An oral and practical test in the adjustment and care of surveying instruments.

VI.—Plotting and calculations in connection with the work done in the field.

Tests Nos. II, III and IV will be such as can be completed by the candidate within four hours.

**Rules as to special course of Practical Instruction.**

*This special course in itself is of little use as a training in surveying. It is only intended as a preliminary instruction; the real training depends on the work done in the field during the year's interval between the course and the examination.*

18. Classes will be arranged at the Bengal Engineering College, the Bihar School of Engineering, Bankipore; and the Dacca School of Engineering, for six weeks in the months of January and February each year. The course will consist of four hours' field work and two hours' class work daily.

19. The heads of these institutions will fix the exact dates in each season, and the sites of training, and inform the candidates after the candidates are allotted under Rule 29.

20. The classes will be held under canvas and the necessary tents for this purpose will be provided by Government.

21. A separate instructor for each class approved by the Board will be appointed by the head of each institution for eight weeks in each season.

22. Attendance will not be marked any day unless the pleader attends for the full working hours, and if a pleader does not work satisfactorily, he will be marked as absent.

23. The instructor shall keep a register of attendance. To obtain credit for attendance at this special course of instruction a candidate must have been entered according to Rule 22 as having attended at least 80 per cent. of the full number of working days, and this attendance must be so distributed that the Board is satisfied that none of the subjects taught has been neglected. He shall also submit maps and sections of all field work to the satisfaction of the instructor.

24. The teacher of the class will not be permitted to give private certificates for this course.

25. A statement showing the total attendance of each pleader will be prepared by the Teacher in charge and forwarded through the Controlling Officer to the Secretary in the case of centres in Bengal, to the Joint Secretary in the case of centres in Bihar and Orissa.

26. The instructor will arrange for tents, coolies and instruments under the supervision of the head of the institutions concerned.

27. The fee for the course will be Rs. 100 payable in advance.

28. Any candidate who desires to undergo the course of training must apply to the Secretary or Joint Secretary of the Examination Board not later than such date in November as may be fixed annually by the Secretary and notified in the first two issues of the Gazette during that month. The application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, B. E. College, Bankipore, or Dacca, and should be accompanied by a remittance for the amount of the fee prescribed for the course.

* If in the candidate's opinion the test area fixed for Test No. 1 cannot be done by means of a chain survey, he may use the method of prismatic compass surveying, justifying by a note in his field-book his rejection of the former method.

29. The Secretary and Joint Secretary will allot candidates, consulting their wishes as far as possible; giving not more than 24 and not less than 8 to a class. If the number of candidates exceeds 72, he may arrange a second course at one centre. He will then inform the heads of the institutions as to the numbers in each of the classes, and the candidates as to the centres which they should attend.

30. Pleaders are expected to make their own arrangements for residence at the respective centres to which they are allotted.

31. The following is the syllabus of instruction:—

(*a*) *Practical Work.*

| | |
|---|---|
| 2 weeks on chain surveying; | 2 weeks on plane tabling; and |

## THE GOVERNMENT COMMERCIAL INSTITUTE.

### The Day Course.

1. There is a specialized Day Course extending over two years. Candidates who have passed the Matriculation Examination are eligible for admission. Others are admitted, provided they satisfy the Education Department, by passing a preliminary test examination of a similar standard, that they have sufficient general education to enable them to derive advantage from the teaching.

2. **Compulsory subjects :—**

(*a*) English (modern), and especially English Correspondence, including Commercial Correspondence, letter-drafting and precis-writing.
(*b*) Arithmetic, including Commercial and Mental Arithmetic.
(*c*) An Indian vernacular.
(*d*) Commercial Geography.
(*e*) Book-keeping (Junior).

For an Indian vernacular, the Institute provides a thorough training in Bengali. Students taking up any other vernacular are given directions for the examination for which they have to prepare themselves. Anglo-Indian candidates who have passed the Higher Standard examination in an Indian vernacular held by the Inspector of European Schools, Bengal, or who have passed the Lower Standard examination in an Indian vernacular held by the Board of Examiners, will be further examined in the same vernacular in the following manner :—

(1) They will be examined orally to test their command of the vernacular for the ordinary purposes of business.
(2) They will have to translate into English a business letter dictated in the vernacular, and will be examined in both the dictation and translation.

3. **Optional Subjects.**—Shorthand and Typewriting—(A candidate may take up one or both, according to his option).

A student must take up all the compulsory subjects and must pass in each to obtain the final certificate. The marks obtained in the Optional Subjects—Shorthand and Typewriting—are counted towards a prize.

4. **Examination.**—At the end of the first year's course, an examination is held to determine promotion to the second year class and to decide the award of scholarships. At the end of the two years' course the final examination is held towards the end of April or the beginning of May. A candidate who fails in one of the five compulsory subjects is not eligible for a pass certificate. A candidate who fails in one subject only in the final examination may appear again in the final examination in the following year in that subject without attending the class. A candidate who fails in only two subjects in the final examination may appear in the final examination in the following year in those subjects, provided that he attends the classes in those subjects.

A candidate who attends a final examination to be examined in a subject in which he has previously failed must pass again in English, if English was not a subject in which he had failed, in order to obtain the diploma.

5. **Text-books.**—The following text-books are prescribed :—

(*a*) English—Hooper and Graham's "Home Trade."

(*b*) Arithmetic—Grant and Hill's "Commercial Arithmetic" and "Mental Arithmetic."

(*c*) Bengali—"Kapalkundala" by Bankim Chandra Chatterjee.

(*d*) Geography—"Commercial Geography of the World" by A. J. Herbertson, "A Short Commercial Geography" by L. W. Lyde, "A School Economic Atlas" by J. G. Bartholomew and "A New Geography of the Indian Empire, Burma and Ceylon" by Morrison.

(*e*) Book-keeping—Arthur Fieldhouse's "Complete Book-keeping."

(*f*) Shorthand—Pitman's Shorthand Instructor, Centenary edition.

The text-books cost about Rs. 25.

6. **Session and Fees.**—The session begins about the end of June and closes about the end of April. The usual summer and Puja vacations are given. The students have to pay an admission fee of Rs. 3 and monthly tuition fee at the rate of Rs. 3 beginning from June. The final examination fee is Rs. 8. Tuition fees are to be paid monthly in advance after admission.

7. **Attendance.**—Strict regularity of attendance is enforced. Students attending less than 75 per cent. of the lectures are debarred from promotion to the second-year class or from appearing at the final examination. Classes are held from 10-30 A.M. to 4 P.M. with half-an-hour's interval daily from 1-30 to 2 P.M. On Saturdays classes are held from 10-30 A.M. to 1-30 P.M.

8. **Scholarships and Prizes.**—Three scholarships of Rs. 12 each per mensem, tenable for one year, are awarded to those students of the first-year class who, amongst those admitted, have secured the highest marks in English at the Matriculation Examination of the Calcutta University. Three scholarships of Rs. 20 each per mensem, tenable for one year, are awarded to those students of the second-year class who obtain the highest total marks at the examination held at the end of the first-year's course. Holders of Junior and Senior scholarships at the Matriculation Examination are not eligible for these scholarships. The best two students in the final examination at the end of the two years' course obtain prizes of Rs. 75 and Rs. 50, respectively, offered by the Bengal Chamber of Commerce. The Remington Typewriter Co. present medals to the best three students in typewriting at the final or special examination.

9. Successful candidates are eligible for posts in the lower grade Secretariat Service.

10. Applications for admission must reach the Principal before the 30th June every year. As only a limited number can be enrolled, priority of application is considered.

## RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT IN THE PRESIDENCY OF BENGAL FOR THE YEAR 1921.

### GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Jails.

RESOLUTION—No. 6343R.J.

CALCUTTA, THE 4TH JULY 1922.

READ—

The Report on the Administration of the Jail Department in the Presidency of Bengal for the year 1921.

Read also—

The Reports for the years 1920 and 1919 and the resolutions of Government recorded thereon.

The year 1921 was one of unusual activity in the Jails Department owing on the one hand to the political unrest caused by the non-co-operation movement and on the other hand to the consideration, and introduction of some.

of the reforms contemplated by the Indian Jails Committee. The first definite sign of the permeation of the jails by the unrest caused by the non-co-operation movement was the outbreak at the Central Jail at Rajshahi, where a rumour had spread that the British Government had come to an end and that all prisoners were to be released. On the 24th March 1921, 669 out of 969 prisoners escaped; the majority were, however, recaptured. Outbreaks occurred subsequently on a small scale in the sub-jails at Serajganj and Netrakona. There were also conspiracies in some other jails which were suppressed in time. At the end of the year the movement affected the department in another way. The numerous arrests that were made in pursuance of the notifications issued under the Criminal Law Amendment Act, Part II, and similar laws put an unprecedented strain on the resources of the Jails Department. No less than "5,802 non-co-operation prisoners were admitted, Calcutta alone being responsible for 3,667. This necessitated opening a temporary jail, wherein 1,721 men were admitted during eleven days—on one night alone, the 23rd December, this jail took in 1,059 prisoners. The Presidency Jail too with a registered accommodation for 1,884 at one time held 2,783 prisoners. The District jails of Chittagong, Rangpur and Faridpur were highly taxed to find room." The officials of most of the Jails concerned met the situation with considerable tact, patience and firmness.

2. Most of the reforms contemplated by the Jails Committee came under discussion. Many of them had to be kept in abeyance for financial reasons, but minor improvements which could be effected without much additional expenditure were given effect to as far as possible. To meet the religious demands of Muhammadan convicts they have been provided with long trousers instead of shorts. In a number of jails honorary Moslem preachers were appointed for giving moral and religious instruction to Muhammadan prisoners on Fridays. The burial of dead Muhammadan prisoners, according to Muhammadan customs, at the expense of Government was sanctioned. Sikh prisoners were allowed to retain certain of their religious symbols, and facilities for the more important religious observances of the various castes are allowed in jails. Female non-official visitors were allowed in a few jails. Arrangements were also made for the retransfer from the Andamans of all political prisoners, female convicts and other persons whose retransfer to India was considered necessary on medical grounds; and orders were passed by the Government of India absolutely prohibiting the deportation to the Andamans of female convicts and certain other classes of criminals. No convict from Bengal was transported to the Andamans in 1921.

3. The Inspector-General of Prisons draws attention to the fact that the number of juvenile prisoners admitted to the jails reached the maximum during the year under review; and he gives his opinion that in England not one of these children or young persons would have been committed to prison. After, however, the end of the year the Bengal Children Act, 1922, was passed into law; and the Governor in Council trusts that this measure, which *inter alia* provides that no child under the age of 14 years shall, under any circumstances, be sentenced to death, transportation or imprisonment for any offence, will remove this reproach from the administration of the Province.

4. Other notable features during the year were the marked decrease in the number of resignations of warders due to the improvement in their pay from 104 in 1920 to 52 in 1921, the decline in the number of punishments inflicted for offences committed in jail from 18,562 in the previous year to 16,353 in the year under review, the fall in the number of whippings inflicted from 61 to 33, the increase in the net cash earnings of the department from Rs. 3,22,676 to Rs. 6,92,580, and last but not least the low death rate of 16 per mille. Mention must also be made of the valuable assistance rendered by the Calcutta Prisoners' Aid Society in finding employment for *ex*-prisoners, a field in which, as the Inspector-General of Prisons indicates, there is great scope for further activity in Bengal.

5. Finally, His Excellency in Council has much pleasure in acknowledging the good work done by the officers mentioned by the Inspector-General of Prisons and in recording the thanks of Government to Lieutenant-Colonel Thompson for his efficient administration of the Jails Department.

ORDER.—Ordered that a copy of this resolution be forwarded to the Inspector-General of Prisons, Bengal, for information.

Ordered that a copy of this resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette.*

By order of the Governor in Council,

M. C. McALPIN,

*Secretary to the Government of Bengal.*

## THE GOVERNMENT COMMERCIAL INSTITUTE.

### The Day Course.

1. There is a specialized Day Course extending over two years. Candidates who have passed the Matriculation Examination are eligible for admission. Others are admitted, provided they satisfy the Education Department, by passing a preliminary test examination of a similar standard, that they have sufficient general education to enable them to derive advantage from the teaching.

2. **Compulsory subjects :—**

(*a*) English (modern), and especially English Correspondence, including Commercial Correspondence, letter-drafting and precis-writing.
(*b*) Arithmetic, including Commercial and Mental Arithmetic.
(*c*) An Indian vernacular.
(*d*) Commercial Geography.
(*e*) Book-keeping (Junior).

For an Indian vernacular, the Institute provides a thorough training in Bengali. Students taking up any other vernacular are given directions for the examination for which they have to prepare themselves. Anglo-Indian candidates who have passed the Higher Standard examination in an Indian vernacular held by the Inspector of European Schools, Bengal, or who have passed the Lower Standard examination in an Indian vernacular held by the Board of Examiners, will be further examined in the same vernacular in the following manner :—

(1) They will be examined orally to test their command of the vernacular for the ordinary purposes of business.
(2) They will have to translate into English a business letter dictated in the vernacular, and will be examined in both the dictation and translation.

3. **Optional Subjects.**—Shorthand and Typewriting—(A candidate may take up one or both, according to his option).

A student must take up all the compulsory subjects and must pass in each to obtain the final certificate. The marks obtained in the Optional Subjects—Shorthand and Typewriting—are counted towards a prize.

4. **Examination.**—At the end of the first year's course, an examination is held to determine promotion to the second year class and to decide the award of scholarships. At the end of the two years' course the final examination is held towards the end of April or the beginning of May. A candidate who fails in one of the five compulsory subjects is not eligible for a pass certificate. A candidate who fails in one subject only in the final examination may appear again in the final examination in the following year in that subject without attending the class. A candidate who fails in only two subjects in the final examination may appear in the final examination in the following year in those subjects, provided that he attends the classes in those subjects.

A candidate who attends a final examination to be examined in a subject in which he has previously failed must pass again in English, if English was not a subject in which he had failed, in order to obtain the diploma.

5. **Text-books.**—The following text-books are prescribed :—

(*a*) English—Hooper and Graham's "Home Trade."
(*b*) Arithmetic—Grant and Hill's "Commercial Arithmetic" and "Mental Arithmetic."
(*c*) Bengali—"Kapalkundala" by Bankim Chandra Chatterjee.
(*d*) Geography—"Commercial Geography of the World" by A. J. Herbertson, "A Short Commercial Geography" by L. W. Lyde, "A School Economic Atlas" by J. G. Bartholomew and "A New Geography of the Indian Empire, Burma and Ceylon" by Morrison.
(*e*) Book-keeping—Arthur Fieldhouse's "Complete Book-keeping."
(*f*) Shorthand—Pitman's Shorthand Instructor, Centenary edition.

The text-books cost about Rs. 25.

6. **Session and Fees.**—The session begins about the end of June and closes about the end of April. The usual summer and Puja vacations are given. The students have to pay an admission fee of Rs. 3 and monthly tuition fee at the rate of Rs. 3 beginning from June. The final examination fee is Rs. 8. Tuition fees are to be paid monthly in advance after admission.

7. **Attendance.**—Strict regularity of attendance is enforced. Students attending less than 75 per cent. of the lectures are debarred from promotion to the second-year class or from appearing at the final examination. Classes are held from 10-30 A.M. to 4 P.M. with half-an-hour's interval daily from 1-30 to 2 P.M. On Saturdays classes are held from 10-30 A.M. to 1-30 P.M.

8. **Scholarships and Prizes.**—Three scholarships of Rs. 12 each per mensem, tenable for one year, are awarded to those students of the first-year class who, amongst those admitted, have secured the highest marks in English at the Matriculation Examination of the Calcutta University. Three scholarships of Rs. 20 each per mensem, tenable for one year, are awarded to those students of the second-year class who obtain the highest total marks at the examination held at the end of the first-year's course. Holders of Junior and Senior scholarships at the Matriculation Examination are not eligible for these scholarships. The best two students in the final examination at the end of the two years' course obtain prizes of Rs. 75 and Rs. 50, respectively, offered by the Bengal Chamber of Commerce. All that piece or parcel of land containing an area of 2 cottahs 14 chittacks and 5 square feet more or less, being premises No. 10 (formerly No. 5) Nanda Lall Mullick Lane, formerly No 8-1, Ram Bagan Lane in Sootanati in the town of Calcutta allotted to the said Benode Behary Mookerjee by the return of the Commissioner of Partition filed in suit No. 136 of 1900 of the said High Court (wherein Sailendra Nath Mookerjee was the plaintiff and the said Benode Behary Mookerjee and others were the defendants), being Lot 1/a in the plan thereto annexed and bounded on the north by the tenanted house of Tulsi Dass Bewah, on the east partly by the premises No. 9, Nanda Lall Mullick Lane and partly by the bustee land of Tulsidass Mukerjee and partly by a common passage, on the South by the premises No. 11, Nanda Lall Mullick Lane, being the land of Nanda Lall Sett, and on the west by the bustee land of Gouri Sanker Dey, deceased.

It appears from searches in the Calcutta Registration Office from 1865 to 1922 that there is no record of any encumbrances affecting the interest of the said Benode Behary Mookerjee in the said premises No. 10, Nanda Lall Mullick Lane, save and except the following, that is to say, an Indenture of Mortgage, dated the 13th October 1920, executed by the said Benode Behary Mookerjee in favour of Bhola Nath Basak and Baidya Nath Basak, sons of Jagat Durlab Basak, deceased, of No. 80, Pathuriaghata Street in the town of Calcutta for Rs. 6,500, carrying interest thereon at 10 per cent. per annum, registered in book 1, volume 5, pages 84 to 96, being serial No. 5359 for the year 1920.

It also appears from searches made of the records of the said suit No. 136 of 1900 of the said High Court that in the said suit which was a suit for partition by the return of the Commissioner of Partition dated the 5th June 1906, which was confirmed by an order of the said High Court, dated the 9th July 1906, the Commissioner of Partition allotted to the said Benode Behary Mookerjee as and for his equal fifth part or share of the estate partitioned among others No. 8-1, Ram Bagan Lane (subsequently changed to No. 5 and now No 10, Nanda Lal Mullick Lane), being land measuring 2 cottahs 14 chittacks and 5 square feet of the value of Rs. 1,412 to be held and enjoyed by him in severalty absolutely.

It also appears from searches made of the records of the Assessment Registers of the Corporation of Calcutta from the year 1865 to 1922 that the said premises No. 10, Nanda Lal Mullick Lane was originally about the year 1868 and before No 5-3-2, Manicktola Street, subsequently changed between the years 1868 and 1869 to No. 8-1, Ram Bagan Lane, thereafter changed between the years 1906 and 1913 to No. 5, Nanda Lal Mullick Lane and changed since the 10th August 1913 to No. 10, Nanda Lall Mullick Lane aforesaid.

The decree was for Rs. 3,580-11-6 and Rs. 297-2 was awarded by the decree for costs, making a total of Rs. 3,877-13-6, but the defendant has made a part payment of Rs. 1,000 and the abovementioned property is to be sold for the realisation of Rs. 2,877-13-6, besides the costs of and incidental to the execution proceedings and the sale herein.

The conditions of sale may be seen at the office of the Sheriff of Calcutta on any day before the said sale and will be produced at the said sale.

## THE BENGAL COURT-FEES (AMENDMENT No. II) BILL, 1922.

A

# BILL

*further to amend the Court-fees Act, 1870, with reference to the scale of Court-fees in Bengal.*

WHEREAS it is necessary further to amend the Court-fees Act, 1870, in its application to Bengal in the manner hereinafter appearing; VII of 1870.

It is hereby enacted as follows :—

Short title and extent.

**1.** (*1*) This Act may be called the Bengal Court-fees (Amendment No. II) Act, 1922.

(*2*) It extends to the whole of Bengal.

Amendment of Article 1 in the first schedule to the Court-fees Act, 1870, as amended by the Bengal Court-fees (Amendment) Act, 1922

**2.** In Article 1 in the first schedule to the Court-fees Act, 1870 [as amended by the Bengal Court-fees (Amendment) Act, 1922], hereinafter referred to as the said Act,— VII of 1870 Ben Act IV of 1922.

(*a*) the commas before and after the word "pleading" in the first column shall be omitted,

(*b*) for the words "in value" in the first entry in the second column the words "or value" shall be substituted, and

(*c*) the word "and" between the third and fourth entries in the second column shall be omitted.

Amendment of Articles 11 and 12 in the same schedule

**3.** (*1*) In the second column of Articles 11 and 12 in the first schedule to the said Act,—

(*a*) for the words "but does not exceed ten thousand rupees" the words "on such amount or value up to ten thousand rupees" shall be substituted,

(*b*) for the words "for the portion", wherever they occur, the words "on the portion" shall be substituted,

Date of effect of amendments

**4.** The amendments set forth in sections 2 and 3 shall be deemed to have been made with effect from the commencement of the Bengal Court-fees (Amendment) Act, 1922. Ben Act IV of 1922.

## STATEMENT OF OBJECTS AND REASONS.

Two clerical errors in section 5 have been discovered in the assent copy of the Bengal Court-fees (Amendment) Act, 1922, in regard to Article 1. These are remedied in the proposed clause 2 of the Bill and the word "and" at the end of the amendment, moved by Babu Annada Charan Dutta, is omitted, in order to give clear effect to the decision of the Council and to the intention of the member.

Doubt has also been expressed as to the meaning of Articles 11 and 12, and it is proposed in clause 3 to amend these Articles so as to give clear effect to the decision of the Council. Following the procedure adopted in 1920 by the Indian Legislature with reference to the Super-tax Act of that year, the amendments are to take effect from the date of the commencement of the Bengal Court-fees (Amendment) Act, 1922.

## TECHNICAL AND VOCATIONAL EDUCATION.

### GOVERNMENT OF BENGAL.

#### EDUCATION DEPARTMENT.

#### Educat.on.

CALCUTTA, THE 6TH JULY 1922.

RESOLUTION—No. 1331Edn.

THE question of the introduction of technical and vocational education in the schools and colleges of this province has for some time engaged the earnest attention of the Government of Bengal in the Ministry of Education. The poverty of the middle classes and the conditions of modern society at the present day have made the subject a matter of special importance. It is

realised that the purely literary education, which has so long been imparted, no longer offers the chance of a decent livelihood to the youths of this country and the demand for a system which will hold out better prospects has in consequence grown more and more insistent.

2. The question has not altogether been neglected in the past. Various attempts have been made to counteract the excessive bias in favour of the literary studies with which the present system is over-weighted, but they have not met with any conspicuous success. In the year 1902 agricultural classes were opened in several zilla schools as an experimental measure, but they had to be closed before long owing to a lack of necessary support. At about the same time a scheme, commonly known as the "bifurcation of studies," was evolved with a view to prepare students not only for an University career but also for all forms of "practical, industrial and commercial pursuits." According to this scheme, the general subjects taught in the first two classes of a high school, which conformed to the syllabus laid down for the Matriculation Examination, were called the "A" Course; the special subjects which led to the Apprentice Department of the Civil Engineering College or the Overseer Department were termed the "B" Course, while the Commercial and Industrial subjects formed the "C" Course. The "C" classes, of which one of the special features was the grant of a certificate on the result of an examination which was considered as equivalent, for the purposes of employment, to the Matriculation Certificate of the Calcutta University, were started in 7 schools, but, in spite of the special facility thus offered, they were poorly attended and very soon ceased to exist. The same fate very nearly overtook the "B" classes also, but the course hitherto followed has recently been revised and the effect is being watched. The latest and the most recent attempt in the same direction is the initiation in several schools of manual training classes, the main object of which is to teach wood work. These are in an experimental stage. The failure of all these efforts to create a taste for vocational education has been due to the fact that the Matriculation Examination has so far dominated the secondary education system and any course which did not lead to an University career was looked upon with disfavour. It is believed, however, that public opinion has of late undergone a change in this respect, and the necessity for reform is now realised. The Government of Bengal in the Ministry of Education consider, therefore, that the time has come to adopt a policy more suited to the altered conditions. They have accordingly had for some time under consideration certain schemes which, when fully developed, they desire to introduce in the educational institutions of Dacca in the first instance, and, if successful, to extend to other parts of the province.

3. The schemes are intended to meet the requirements of the secondary schools, the intermediate colleges and the Dacca University. So far as the first are concerned, it is recognised that all that can be attempted is to give a bias towards practical education, and it is, therefore, intended that while the training of the hand and eye will be the main object to be kept in view, advantage will be taken of the course followed in the manual training classes to teach a boy a definite craft which is likely to prove useful to him in after life, whether he takes up an University career or not. In order to achieve this object, it is proposed to establish one or more central workshops in Dacca which will be available for the use of all the secondary schools in the town, and where systematic training will be given in carpentry, smithy, card-board making and other suitable crafts. The necessary number, location, equipment, staff and control of these workshops are questions which will require a careful consideration.

4. The case with the Intermediate Colleges and the University is different, and there is no reason why a definite vocational course should not be introduced in these institutions. In framing, however, a scheme for them, the fact that an University degree cannot be granted without adequate culture will be kept in view and the curriculum so devised that the needs of both the cultural and the vocational sides are attended to. Thus, to give one

illustration, it is proposed that, for a commercial degree, the course adopted for the intermediate stage will include, on the cultural side, English, the vernacular and one or two other subjects such as Mathematics or Geography and, on the vocational, a practical training in precis and letter-writing, accounts type-writing and shorthand in English and Bengali, while in the post intermediate stage, the combination prescribed will, on the one hand, be a course of higher studies in English and the vernacular and one or two subjects from an optional group. *e.g.*, Political Economy, Principles of Banking, Mathematics, Commercial Geography, etc., and on the other, higher Accountancy, Principles and Practice of auditing, practical training in banking in one group and suitable subjects concerning Commerce in an alternative group. Similarly, arangements will be made for the provision of other suitable literary groups in combination with such subjects as Dyeing, Tinctorial Chemistry, Agriculture, Tanning. sheet metal industry for the manufacture of small articles and the like, to enable students to follow a definite course from the Intermediate up to the highest stage. In making the selection preference will be given to subjects for which there is likely to be an opening for trained youths either in undertakings with a small capital or as employees in well-established concerns.

For students, however, who are unwilling or unable to take advantage of the full course, it is possible that, with some modification in the cultural curriculum, a course of training may be devised which will be shorter in duration, and, at the same time, lead to some definite remunerative career. The possibility of indroducing photography, analytical chemistry, the manufacture of scientific instruments and similar subjects will in this connection be borne in mind.

5. There remains the question of providing a suitable course of Engineering and Medical Education in connection with the University of Dacca. The development of these departments is essential for the complete organisation of the University, but, owing to the heavy cost which it will entail, it is doubtful whether much can be done in this direction now. There is, however, the possibility of expanding the Dacca Engineering School so as to provide not only for a degree course, but also for a training in such subjects as railway, mechanical and electrical Engineering and this question will be taken into consideration. The provision of higher medical training is a matter of greater difficulty. There is of course the Medical School in Dacca which may be improved, but Government has at present no intention of raising it to a higher status. Any scheme for the establishment of a Medical College in connection with the University will, therefore, have to be prepared independently of the existing institution.

6. The proposals, of which an outline has been given in the previous paragraphs, are of a tentative nature, and will require a careful and detailed examination before they can be put into operation. In order that this may be done, and before they decide upon a definite plan of action, Government feel that it will be desirable to consult the educational experts and such representatives of the people as are competent to offer advice and suggestions in the matter. They have accordingly decided to appoint a Committee which will be constituted as follows :—

1. Vice-Chancellor, Dacca University ... *President.*

7. The Government of Bengal in the Ministry of Education trust that the Committee will make a detailed examination of the schemes indicated above and such others as may come within their cognizance, decide upon their suitability having due regard to the existing economic conditions of the province, prepare suitable curricula, advise as to the qualification of the teachers, investigate the question of adequate openings for trained students, frame an estimate of cost, make any other suggestions which they think to be relevant, and submit, as soon as possible, a comprehensive and co-ordinated scheme of technical and vocational education to which effect may be given, in whole or in part, at an early date.

## DRAFT RESOLUTION REGARDING THE APPOINTMENT OF A COMMITTEE TO ADVISE GOVERNMENT AS TO THE BEST METHOD OF INDUCING INDIAN LADIES OF GOOD SOCIAL STATUS TO TAKE UP NURSING.

### GOVERNMENT OF BENGAL.

**LOCAL SELF-GOVERNMENT DEPARTMENT.**

**Medical.**

CALCUTTA, THE 10TH JULY 1922.

RESOLUTION—No. 1726Medl.

**Minister in charge: The Hon'ble Sir S. N. Banarji, Kt.**

THE desirability of creating a class of trained Indian Nurses has been constantly recognized for some years past. This idea appealed very forcibly to Lady Carmichael, and she devoted herself with great energy to giving it some practical shape during her stay in Bengal. In 1915 a scheme on these lines was prepared in connection with the Sambhu Nath Pandit Hospital, Bhowanipur; the existing posts of Matron and Staff Nurses were abolished, and one Lady Superintendent, one Lady Deputy Superintendent and two Lady Assistant Superintendents were appointed to supervise the training of 20 Indian Nurses. These 20 probationers were granted subsistence allowances of Rs. 10, Rs. 15 and Rs. 20 per mensem during their first, second and third year of training respectively, while they were also granted a small diet allowance. Quarters were provided at a considerable cost. A portion of the expenditure was met by Government, while a contribution was obtained from the Corporation.

There are ordinarily six vacancies each year at the training school which has turned out 39 nurses since its establishment, viz., 17 Bengali, 2 Bihari and 20 hill women. Most of the Bengali women are Christians, and this type of employment so far appears to have had no attractions for orthodox Hindu and Muhammadan women.

2. Indian Nurses (as distinguished from *dhais*) also receive training in the Dufferin Hospital, in the Sagor Dutt Hospital at Kamarhati, and in the Mitford Hospital of Dacca. Training is also given under a two-years' course in the excellent hospital attached to the Church of Scotland Mission at Kalimpong, but the hill girls who undertake this course, are not certified until they undergo a third year of training at the Sambhu Nath Pandit Hospital. It is understood that there is no great difficulty in obtaining candidates for training at the Dufferin Hospital, and it is said that these nurses when trained, succeed in obtaining employment in the northern part of Calcutta. The Sagor Dutt Hospital trains nurses for its own requirements, and does not grant certificates.

The scheme inaugurated in connection with the Mitford Hospital provides for the training of 20 pupil nurses who undergo a three-years' course. Elementary classes in anatomy, physiology, midwifery, surgical and medical nursing are held, while a Lady Superintendent directly supervises the practical training of the probationers.

The nursing arrangements in the Calcutta Medical College hospitals and in the Presidency General Hospital are supervised and controlled by the Calcutta Hospital Nurses Institution. There are at present 21 Indian nurses employed in the Eden Hospital.

3. It will appear from the above facts that Government and other bodies concerned with nursing arrangements, have for some time past been anxious to induce Indian women to undertake nursing as a profession. This

question has been raised on more than one occasion recently in the Legislative Council with apparently two objects. On the one hand, the desire to popularize nursing as a profession among Indian women appears to aim at securing greater economy in hospital management by the employment of a cheaper agency, while on the other hand it appears to be thought that nursing may offer an avenue of employment for Indian ladies of a higher social status, who through widowhood or other causes may have no strong domestic ties. A fairly good general education is necessary to enable a probationer to assimilate and profit by the course of training required by a nurse, while under the recent orders of Government to which reference will shortly be made, a somewhat arduous curriculum of theoretical instruction and practical work is prescribed for those desiring to be enrolled as qualified nurses. It is, however, possibly not the menial tasks to which a nurse must submit, which renders this profession somewhat unattractive to Indian ladies of the middle classes, but rather the unaccustomed publicity into which a nurse is inevitably forced by the nature of her profession However this may be, Government for some time past have been anxious to popularize nursing as a profession amongst Indian women, and it is desired to ascertain whether more effective measures can be taken to secure this end.

4. Government are satisfied that it is essential to prescribe a high standard of professional qualifications for the fully trained and certified nurse. The State Medical Faculty of Bengal recently addressed Government in this behalf, and in accordance with their recommendations, orders were issued on the 30th January 1922, approving the inauguration of a regular course of instruction and a qualifying examination for nurses in Bengal. It is unnecessary to refer to these proposals in detail, but, briefly, Government have approved the issue of a Senior and Junior Certificate in Nursing, in each case with a three-years' course which includes—besides practical training—instruction in elementary anatomy, physiology and hygiene. Examinations are to be held at the end of the first and second years of the course by the authorities of the institutions, approved for the training of nurses, while the final examination for the qualifying certificate is to be held by the State Medical Faculty. For the present the Senior Certificate Examination is open only to nurses who have been trained at the Calcutta Medical College and the Presidency General Hospital, although the recognition of other institutions which may be properly staffed and adequately equipped for training purposes, may be granted subsequently. Provision for training nurses up to the junior standard exists at the Calcutta Medical College and the Sambhu Nath Pandit Hospital, while the training imparted in the Dufferin Hospital, although restricted to the nursing of women and children, will qualify nurses for the final junior certificate, if supplemented by a six-months' training in the men's wards of a general hospital.

Orders have also issued for the institution of separate examinations for Midwives for the two Certificates to be known as the Senior and Junior Midwives' Certificates. The Calcutta Medical College (Eden Hospital), the Sambhu Nath Pandit Hospital and the Dufferin Hospital are recognized as institutions for the training of midwives. The course for the Senior Midwives' Certificate is limited to one year, of which six months are to be devoted to instruction in elementary midwifery and the practical nursing of women and children, and six months to obstetrical nursing with the personal conduct of 20 labour cases and attendance at not less than 100 confinements. The course for the Junior Midwives' Certificate extends over 14 months, of which six months are to be allotted to instruction in elementary midwifery and the practical nursing of women and children, and eight months to obstetrical nursing, while candidates for this certificate must have personally conducted 10 labour cases and have attended at least 50 such cases.

The examinations in all cases will be held by the State Medical Faculty, and the certificates will be issued by this authority.

It is clear that courses of this kind involve hard work and steady application, but as already stated, Government are of opinion that it would be an unwise and retrograde step to certify any nurses, whose capacity and application have not been tested by severe standards of this kind.

5. It is natural that candidates for the nursing profession should desire to be assured that profitable employments will be available after obtaining their certificates. It cannot be stated that the outlook under present conditions for Indian nurses is very hopeful. They can aspire to become Staff Nurses for the Sambhu Nath Pandit Hospital or may undertake private nursing either indepeudently in connection with the hostel associated with Lady Roger's name, or again (more rarely) they may find employment in mofussil hospitals. The number of Staff Nurses in the Sambhu Nath Pandit Hospital is, however, small, while the demand for Indian nurses through the hostel is small. The Indian public is beginning to appreciate the essential need for good nursing in most forms of illness, but it is probable that for some time to come, the fact will not be fully grasped that good nursing is the handmaiden to proper surgical or medical treatment. The mofussil hospitals might appear to offer some scope for the trained Indian nurses, but unfortunately these hospitals are at present usually in financial difficulties and are generally unable to meet the cost of engaging a trained nurse.

There is, however, a wide field for Indian nurses in the large general hospitals of Calcutta which at present are almost entirely staffed by European or Anglo-Indian nurses. The Calcutta Hospital Nurses' Institution has definitely expressed its willingness to provide employment for Indian nurses who have been properly trained, and Government (Ministry of Local Self-Government) desire that measures may, if possible, be devised, to attract Indian ladies to this profession, with the prospect of obtaining remunerative employment in the organization which the Calcutta Hospital Nurses' Institution so ably controls.

6. Government recognize that in a matter of this kind, it is impossible to devise a scheme with any prospect of success, unless the social and economic factors of the problem are carefully weighed. It is hoped that a strong committee in close touch with Indian life and comprising representatives of the nursing institutions and of the medical profession, both official and non-official, may be in a position to make practical recommendations regarding the measures required to foster and encourage the adoption of trained nursing as a profession by Indian ladies of higher social status than the majority of those who have hitherto made nursing their career.

Government have therefore decided to appoint a committee to report on the whole question, consisting of the following ladies and gentlemen who have kindly agreed to serve :—

1. Mr. R. Langford James, M.L.C. (*President.*)
2. Sir Ashutosh Chaudhuri, M.L.C.
3. Rai Bahadur Radha Charan Pal, M.L.C.
4. The President of the Calcutta Nurses' Institution,
5. The Superintendent of the Medical College Hospital.
6. The Superintendent of the Campbell Hospital.

## PUBLIC HEALTH.

**Minister in charge : The Hon'ble Sir S. N. Banarji, Kt.**

*No. 2005P.H.—The 10th July 1922.*—In pursuance of section 37F of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), it is hereby notified, for general information, that the scheme submitted by the Commissioners of the Howrah Municipality for extending its waterworks jetty intake at Serampore, in the district of Hooghly, has been approved by the Government of Bengal (Ministry of Local Self-Government) and that the particulars of the said scheme are as follows :—

**Hooghly.**

(*a*) This scheme provides for the construction of short jetty close to Dey's Ghat, and a surface well by the side of the existing suction pipe jetty in front of the waterworks. Water will gravitate from Dey's Ghat to the new surface well at the existing jetty through the 24" diameter steel pipes and the existing low lift suction pipe will be connected to the new surface well. In this way it is hoped to augment the supply of water available at low tides and so counteract the effects of the *chur* which forms every year in the river bed close to the end of the suction pipe jetty.

(*b*) The estimated cost of the scheme is Rs. 36,334.

(*c*) The sum of Rs. 36,334 on account of the cost of the scheme will be met from a loan of Rs. 36,334 from Government.

(*d*) The loan of Rs. 36,334 bearing interest at 7 per cent. will be repaid in 40 equal half-yearly instalments of Rs. 1,701-6-9 only.

2. The said scheme will be taken into consideration on or after the 19th September 1922 and any objections or suggestions with regard thereto which may be received by the undersigned through the District Officer before that date will be duly considered.

## Preliminary Forecast of the Jute Crop in Bengal, 1922.

**(Note.—On an average of the five years ending 1920-21, the area under jute to which this forecast relates represents 88·2 per cent. of the total area under jute in British India.)**

The present forecast deals only with the estimates of area sown and the present condition of the crop based on information received through the agency of the panchayats, as in previous years.

**Area sown.**—The district returns show a total area sown of 1,220,548 acres, being a decrease of 108,642 acres, or about 8 per cent. over the final figures for 1921. The decrease may be attributed almost entirely to drought at the sowing season and in a minor degree also to the low price obtained for the three preceding crops; and to the comparatively high price of food-stuffs which may have induced some cultivators to grow more paddy in place of jute.

**Character of the season.**—The outstanding feature of the season was the unusually long spell of drought which extended during the period, November, 1921, to the end of May, 1922. In this connection it may be noted that execept in February and March, 1909, such conditions have not prevailed before in the Presidency during the past twenty years and the drought in April and May was unprecedented in East Bengal. In the months of January and February, there was practically no rain in the eastern districts. Preparatory tillage in consequence proceeded very slowly during these two months. In North Bengal, on the other hand, scanty rainfall, combined with existing soil-moisture, helped operations a good deal. The rainfall in the latter part of March, however, slightly improved the situation for sowings on low land in parts of East Bengal, but the showers were very scattered and uneven in distribution. In the important district of Mymensingh sowings were practically at a standstill at this stage over wide areas. In North Bengal, the weather conditions were generally favourable for sowings on low lands. The rainfall in April was about half the normal almost throughout the Presidency. The early sown crop on low lands in East and in parts of North Bengal became stunted in growth and was so much affected in places owing to drought that a large area had to be resown during this month. The sowings on high lands also commenced, but the progress was suspended for a while. The rainfall in May was moderate and high land sowings proceeded briskly during the course of and especially towards the end of the month. In the western districts sowings commenced somewhat late and continued up till the latter part of June, when heavy rain caused water-logging on low lands and some damage to young plants in places. As a result of these late sowings complete returns have not been obtained from some of the Western Bengal districts and a slight increase in area may be indicated in the next forecast when revision takes place.

**Present state of the crop.**—Since the monsoon arrived in the latter part of May conditions have been favourable in the more important jute districts and the crop has come on in a somewhat remarkable manner. The low land crop has been fortunate owing to the fact that the rivers have remained much lower than usual and consequently the crop in these areas, although late sown, has had time to grow. Present conditions indicate that at least a fair crop can now be anticipated.

**Stock in hand.**—Very little old stocks now appear to be held in the districts.

| Nadia ... ... | 33,431 | 28,849 | Do. ... ... ... | Chuadanga—beginning of May; normal.<br>Elsewhere—first week of June; late. | The decrease in area is due to drought at sowing time and to low price of jute in the preceding years.<br>The weather was not favourable at sowing time and during the period of growth, but subsequently the conditions have generally improved. | Rangpur ... ... | 138,255 | 154,339 | None ... ... | Sadar and Nilphamari—March.<br>Kurigram and Gaibandha—April; normal. | The increase in area is due to the high price obtained in the latter part of the last financial year and also to the fact that the cultivators have found that they had not profited by giving up the cultivation of the crop.<br>The weather was unfavourable at sowing time owing to drought which retarded the germination especially of the early sown crop. Subsequent rains have been very favourable and have more than made up for the bad effects of the drought. |
| Bogra ... ... | 50,800 | 45,320 | Little ... ... | May; late ... ... | The decrease in area is due to drought at sowing time and to low price. The recent rainfall has helped the growth of the crop. The present condition is not promising. |

## Preliminary forecast of the jute crop of Bihar and Orissa, 1922.

**(Note.—On an average of the five years ending 1919-20, the area under jute to which the Bihar and Orissa forecast relates represents about 7·6 per cent. of the total area under jute in British India.)**

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage, figures or in bales.

**2. Acreage.**—The estimated area sown during the current and four preceding years in round numbers is given below:—

| Year. | Acreage. |
|---|---|
| 1918 ... ... ... ... | 149,300 |
| 1919 ... ... ... ... | 203,400 |
| 1920 ... ... ... ... | 178,800 |
| 1921 ... ... ... ... | 108,400 |
| 1922 ... ... ... ... | 144,600 |

**3. Weather conditions.**—In March, there was no rain in the jute districts, except very light showers in Cuttack. In April and May the rainfall was below the normal everywhere. The rainfall in June was above the normal everywhere and it was very heavy in the Santal Parganas.

**4. District returns.**—The total area under jute, as reported by the District Officers is estimated in round numbers at 144,600 acres, as compared with 106,400 acres as shown in the corresponding forecast of last year and against 108,400 acres reported in the final forecast of last year. The increase in area sown this year is mainly in Purnea, where it is attributed to the rise in the price of jute.

**5. Condition and prospects.**—The condition of the crop is on the whole fair.

**6. General.**—The quantity of jute which remains in the jute districts from the crop of 1921 is reported to be little.

The statement below compares the area under jute in this Province this year with the preliminary and final figures of last year:—

The condition of the crop is fair. Sowings have been delayed and are still going on in some parts. The slight decrease in area this year is due to cessation of rain in the earlier part of the season which interfered to some extent with the preparation of lands for the crop. The area under the crop is likely to increase hereafter. |
| | Balasore ... | 1,332,021 | 932,200 | 2,400 | 1,700 | 2,100 | Very little ... | First week of June. | The weather was not favourable and there was no rain up to the latter part of May. The condition of the crop is fair. Sowings were commenced late and are still going on. The price of jute is ruling high and the people having sufficient foodstock a larger area is sown with jute instead of *bhadai* crops. |

## Preliminary forecast of the jute crop in Assam, 1922.

**NOTE.—On the average of the five years ending 1919 the area under jute in Assam represents some 3·9 per cent. of the total area under jute in British India.**

1. **Character of the season.**—The spring was unusually dry and was unfavourable to sowing and early growth, but the weather improved subsequently and present prospects are on the whole good.

2. **Area sown.**—The total area under jute is estimated to be 91,400 acres against 80,800 acres in last year. The increase represents mainly a return to more normal conditions of the market.

3. **Stock.**—As reported, little jute remains from last year except in Goalpara.

# RESOLUTION REGARDING THE REVISION OF THE PAY OF MINISTERIAL OFFICERS IN BENGAL.

## GOVERNMENT OF BENGAL.

### FINANCE DEPARTMENT.

**Finance.**

CALCUTTA, THE 17TH JULY 1922.

RESOLUTION—No. 10278F.

READ—

The Report of the Committee appointed to advise on the revision of the pay of the ministerial officers and menials in Bengal and the Note of Dissent recorded by Rai Mahendra Chandra Mitra Bahadur.

In the Finance Department Resolution No. 13371F., dated 22nd August 1921, the orders of Government were recorded regarding the revision of pay of menials in Bengal. The present Resolution deals with the revision of the pay of ministerial officers serving under the Local Government.

2. On the recommendation of this Government the Government of India sanctioned *ad interim* allowances to ministerial officers in this Presidency on account of the high cost of living, with effect from 1st April 1920, the war allowances granted to officers drawing not more than Rs. 50 per mensem ceasing from that date. This was, however, only a temporary measure, and in the opinion of Government the changed conditions after the war rendered a permanent re-adjustment of salaries necessary, and, with this object in view, a Committee was appointed in November 1920 to advise on the revision, in reference to modern economic conditions, of the pay of the permanent ministerial and menial establishments in Bengal. The report submitted by the Committee as well as the Note of Dissent have been carefully considered by Government. The proposals in the Note of Dissent entail an expenditure 56 per cent. in excess of that recommended in the main report. The recommendations in the Note of Dissent are based on an estimate of the increase in the cost of living which Government believe to be erroneous, and they do not allow for the very great improvement in the pay of the present incumbents which will result by the counting of past service on the new time-scales. In these circumstances the Governor in Council has been unable, especially in view of the present financial position of the province, to adopt the Minority Report, as recommended by the Legislative Council, or to accept any scheme of revision more costly than that outlined in the Majority Report, the recommendations of which have been adhered to in the main in determining the revised scales of pay to be granted to the ministerial officers.

3. The proposals set forth in the first 113 pages of the Majority Report, so far as they relate to the provincial establishments, have now been sanctioned by the Government of India, subject to the modifications indicated in column 10 of the statements attached herewith, as well as in paragraphs 4 and 5 below.

4. The new rates of pay will take effect from 1st January 1922, and the *ad interim* allowances will cease from that date. In the event of a material reduction in the cost of living the rates of pay in force will come under further consideration and will be liable to such reduction as may appear necessary in the interest of economical administration.

5. The following general principles should be observed in bringing officers on to the new time-scales :—

(*a*) Officers who are brought on to a time-scale will be permitted to count all continuous temporary, probationary, acting or substantive *pro tempore* service in a corresponding post, followed by confirmation, as if it were service on the new time-scale, and to draw pay at the point which they would have reached upon this hypothesis, provided that a deduction of one year shall be made from the total service thus calculated.

(*b*) An officer who originally entered on any of the appointments which are now put on a time-scale at a pay higher than the lowest of those appointments will draw an initial pay not less than that of the officer next below him in the present grade who entered on the lowest pay.

(*c*) An officer whose promotion has been accelerated for good work will draw on the time-scale the same initial pay as the officer next below him.

(*d*) An officer who has been degraded or punished by having his promotion permanently retarded will draw the same pay as the officer next above him.

(*e*) Officers whose initial pay fixed according to the above principles is less than the pay, plus *ad interim* allowance which they were drawing on 1st January 1922, should be allowed to start in the new scale at a point equal to that sum, or, if there be no such point, at the next higher point in the scale.

(*f*) Loss of acting allowance as well as *ad interim* allowance calculated on acting allowance should be taken into consideration, and a personal allowance granted to make good the loss, with the sanction of Government.

(*g*) Future increments of officers brought from progressive to time-scales should be allowed from the dates on which increments would have accrued in their old scales.

(*h*) Subject to the proviso that no officer will draw less than the minimum of the new scale or more than the maximum, the initial pay must not exceed the substantive, provisionally substantive, or substantive *pro tempore* pay *plus* temporary allowances drawn on the 1st January 1922 by more than—

(1) Forty per cent. in the case of those drawing pay of not more than Rs. 100 on that date.

(2) Thirty per cent. in the case of those drawing pay from Rs. 101 to Rs. 200 on that date.

(3) Twenty per cent. in the case of those drawing pay more than Rs. 200 on that date,

with necessary adjustments at points, where percentages change, to avoid anomaly of treatment.

(*i*) Individual cases not covered by the above rules should be referred specifically for the orders of Government.

6. There is no necessity to place a second efficiency bar at the 18th year of service as recommended in paragraph 9 of the Report. In the case of officers in whose scales of pay efficiency bars have been prescribed, the head of the office will in each case decide whether an officer should be considered to have passed the efficiency bar, and will make such a declaration in the bill in which his pay is next drawn.

7. The Fundamental Rules regulating acting promotion and the calculation of acting allowances will apply with effect from 1st January 1922 to all the services included in the present scheme of revision. In giving retrospective effect to the new rates of pay, deductions should be made on account of *ad interim*, and acting allowances already drawn under the old rules for the period from the 1st January 1922.

| Rs. A. | Rs A | | |
| 15,152 0 | 2,972 0 | Prior to 1918 the pay of the Officer-in-charge was the same as that of the Superintendent, Legislative Department, and it should now be fixed at the same figure also, viz , Rs 200—10—300, which is the pay proposed for the latter post. | The figure 5 put in column 3 of the statement in the report against the scale of Rs 40—3—50 is a misprint for 6. |
| 46,268 0 | 11,288 0 | The present Keeper of Records is on Rs. 300—25—400, but the permanent pay of the post is Rs. 300—10—400. The former scale has been included in the figure for present cost. | |
| 18,268 0 | 4,588 0 | | |
| 16,764 0 | 6,404 0 | The pay of the confidential assistant should be fixed with reference to the qualifications and previous pay of the incumbent for the time being. A scale of Rs 350—15—500 may be accepted as personal to the present incumbent , the pay of the post to be reconsidered when he vacates it. | |
| 13,625 0 | 4,880 0 | As it is desirable to bring the Superintendents in this office and in the Private Secretary to the Governor's office into line, the same scale of pay as proposed for the latter has been adopted for the former. | |
| 53,026 0 | 15,805 7 | The figures for present cost and the proposed cost under Government's proposals include a post of a draftsman on Rs 100—5—125 in the Drawing Branch of the Public Works Department omitted by the Committee. For the present incumbent of this post a scale of Rs. 125—5—165 is proposed. Future incumbents should, however, get the ordinary scale of Rs. 50—5—165. As regards the post outside the cadre of the Finance Department, as the present treasurer is now getting Rs. 200 as pay + Rs 40 as personal allowance + Rs. 36 as *ad interim* allowance, which is more than Rs 270, the maximum proposed by the Committee, this Government propose for him only a scale of Rs. 170—10—300, the future incumbents being put on the scale of Rs. 170—10—270 as proposed by the Committee | A part of this establishment belonging to the Roads and Buildings Branch of the Public Works Department is a transferred department |
